1. PREAMBLE

Maragela Consulting Engineers was formed with a goal of providing an engineering and project management service with high standards of delivery and quality. It is owned by Ms. Meme Maragela, she has substantial experience in administration and labour matters, and she also has a National Diploma in Human Resource Management from Vaal Triangle University of Technology. She is responsible for the administration, labour and financial aspects of the organization. She has appointed by Mr. Motshedi Nathane as an operations manager, in charge of technical aspects of the organization. He brings into this firm the following credentials:

Mr. Nathane has more than 15 years' experience in Civil Engineering design and construction.

2. VISION

The vision of Maragela Consulting Engineers is to create sustainable jobs to a considerable number of previously disadvantaged individuals in both rural and urban communities. To be also a driving force of commercially sustainable local communities through the provision of the necessary training and development programmes, and to nourish and harness the skills and training within the local communities to off-set present high level of unemployment trend in our country.

3. MISSION STATEMENT

Maragela Consulting Engineers Pty (Ltd) is dedicated to broad based value added empowerment, with the dawn of the African Renaissance we are ready to widen our horizon and embrace the future of Civils and Construction with more vigour and optimism. Our primary objectives are to contribute to the generation of balanced, sustainable and economic empowerment of the South African population, thereby promoting the economic prosperity for all citizens. We will achieve these objectives by building a competitive company based on sound business principles and good corporate governance.

4. HEALTH AND SAFETY PLAN

To ensure that the Health and Safety of all my managers, personnel and associated parties is not compromised, our firm has adopted the following procedures:

To complete an in-house risk assessment at the initiation of the preliminary design stage of each project.

To keep a copy of the Occupational Health and Safety Act, 1998' as well as the Occupational Health and Safety Construction Regulations 2003, in our offices at all times for reference purpose by our staff.

To keep and actively update a Health and Safety file in the office.

To determine the relevant legal regulations and provisions from the "Occupational Health and Safety Act, 1998" and the OHS Construction Regulations, as well as other code of practice documentation and compile programmes and processes to ensure conformance.

To "think-out-of -the-box" and produce further applicable and necessary health and safety standards on specific projects where there is a lack of applicable legal literature

To perform induction sessions, weekly safety meetings, in service training, education, supervision and safety cross-checks with all involved staff, managers and directors.

To ensure the correct and compulsory use of protective clothing such as toe-protective work boots, hardhats, day glow vests, full body harnesses and fall arrestors, etc.

To arrange "feed-back sessions at the completion of projects to discuss and report on health and safety issues and contribute recommendations for our firm's future reference purpose.

To provide professional Occupational Health and Safety service for clients (Employers) in the form of Health and Safety Specification Compilation for projects.

Alternatively, providing professional occupational Health and Safety risk Assessment and planning services for Contractors and assisting with OHS inspections and the OHS file keeping, where the OHS Specification already forms part of the Contract Documentation.

5. COMPANY QUALITY MANAGEMENT SYSTEM

To comply with the adoption by SABS of the ISO 9000 series of documents related to quality systems, our company is currently formalizing an internal quality assurance system.

The objectives of this formalized system are:

To provide a committed framework for ensuring that sufficient checks and balances exist to make certain that the Client is provided with innovative, rational and suitable design, site monitoring and project management solutions and services, which are both safe and cost effective.

To comply with the rules and regulations of "SABS ISO 9001: 1994 (as revised): Quality Systems Model for quality assurance in design, development, production, installation and servicing".

To ensure that all the company's resources and personnel are kept abreast of the highest level of technological advancement so that our services and solutions remain relevant and compliant with "World's best Practice" criteria.

6. COMPANY ENVIRONMENTAL MANAGEMENT UNDERTAKING

Our firm acknowledges the interrelation between social, economic and natural environments and accepts that all development must occur in a responsible manner to ensure the sustainability of these.

To this end, our company endeavors to conform to 'SABS ISO 14001: 1996 (as revised): Environmental management systems Specification with guidance for use" and adopts the principals and goals as stipulated in the" United Nations Sustainable Development Document: Agenda 21".

Involvement with Environmental Management issues as attained as follows:

Our company actively seeks engagement in eco-tourism type projects.

As part of our project management services, our firm will arrange and supervise Environmental Impact Assessments where required due to socio-economic or natural environmental implications.

As part of our skills development and transfer processes, our staff and directorship are encouraged to attend courses, talks and seminars and to involve themselves in governing bodies which are related to the socio-economic and natural environment.

7. COMPANY MANAGEMENT STAFF PROFILE

NAME	POSITION	PDI STATUS	GENDER	CITIZENSHIP	% Ownership	Race
Mrs. Meme Nathane	Director	Yes	Female	RSA	100%	Black
Mr. Motshedi Nathane	Director	Yes	Male	RSA	Nil	Black

8. AREAS OF SPECIALITY

The company specializes on the following:

Railway Engineering

Project Management

Urban infrastructure and township services design

Rural infrastructure design

Water and Sanitation networks

Transportation Planning and Technology

Structural design

Roads and stormwater design

9. LIST OF COMPLETED PROJECTS

Item	Description	Construction Amount	Client	Contact Person	Contact No.
1.	Design and Project Management for the new sewer reticulation system	R 15.0 mil	Potchefstroom Local Municipality	Mr. Chrito Stoltz	(018) 299 5436 083 447 3246

2	Two Touch Football Club Academy	William Noge	073 232 9009
3	Parma Ladies Football Academy	Lesiba Shiba	071 125 4594
4	Unathi Children Home	Zanele Hlatswayo	072 622 3215

15. CV'S OF KEY PERSONNEL

Maragela Consulting Engineers recognizes that any given project demands a fundamental understanding and competence in various areas of professional involvement. The company therefore uses the most appropriate skills within its professional team for each awarded project.

CURRICULUM VITAE

Company Name	Maragela Consulting Engineers (Pty) Ltd
Nationality	Motshedi Nathane
Date of Birth	South African
Profession	23 December 1973
Position	Civil Engineer
Specialization	Director
	Project, Construction management, Feasibility Studies, business plan, design and implementation of Civil infrastructure projects
Start date with MCE	2007- Full Time

Key experience

A PR Engineering Technician more than 15 years' experience, Motshedi Nathane specializes In Project, Construction Management and planning and implementation of rural and Urban infrastructure development projects. He worked for Transnet Infrastructure Division for more than 10years as a Technical Manager, also for Protekon Construction as a Contracts Manager. Key experience includes:

- **Construction Management**
 - **Railway Engineering**
 - **Project Management**
 - **Civil Design**
 - **Contract administration**
 - **Storm water Assessments.**
 - **Mentoring**
 - **Quality Process Control and Management Systems**
-

Qualifications

National Diploma in Civil Engineering: Tshwane University of Technology
B Tech in Civil Engineering: Johannesburg University of Technology.
MAP with Wits Business College
Engineering Council of South Africa
Institute of Professional Engineering Technologists
The Chamber of Engineering Technology

CURRICULUM VITAE

Profession:	Maragela Consulting Engineer (Pty) Ltd
Name:	Ntokozo Mhlongo
Date of Birth:	12 August 1985
Nationality:	South African
Qualification:	B-Tech (Civil)
Professional Status:	Building Engineer
Years' Experience:	Six Years
Start time with MCE	2015

Key Experience

Ntokozo Mhlongo obtained his National Diploma in 2010 and further studied where he obtained his B.Tech qualification in Civil Engineering in 2012 at University of Johannesburg. He has six Years' experience where he has focused on infrastructure projects in the mining industry. He also has site/quality engineering experience where he did general construction supervision of civil works.

His Key Experience Includes:

- Compile monthly construction program and Civil works
 - General construction supervision of civil works
 - Compile and maintain project quality file in accordance with ISO 9001:2008
 - Conduct site inspections and internal and external quality audits
 - Design Structural Steel buildings, platforms and structures for equipment
 - Designing reinforced concrete buildings, foundations, pump basis, tank basis, retaining walls and industrial floors
 - Reinforcing concrete detailing using prokon Padds
 - Preparing Bill of quantities for civil, concrete, structural and architectural works
 - Preparing basis of estimate document
 - Pavement designing
 - Stormwater hydrological analysis, hydraulic and concrete designing
 - Soak away designing
-

QUALIFICATIONS

2012: B-Tech (Civil Eng.), University of Johannesburg, SA

ECSA: Candidate Engineering Technologist.

CURRICULUM VITAE

Company Name	Maragela Consulting Engineers (Pty) Ltd
Nationality	Abraham Quaye
Date of Birth	Ghana
Profession	17 June 1975
Position	Building Engineer
Specialization	Construction Monitoring
Start date with MCE	Construction management 2011

Key experience

An experienced Building Engineer with 15 years of engineering and quality assurance project management experience. Abraham has over 15 year's site experience working on various projects. The projects have ranged from heavy duty foundations, roads and stormwater, water and sanitation and other related structural projects. Given has been assigned Quality Assurer for multiple projects and he is an independent member acting out of the scope of the core key members

An experienced building Engineer with 15 years' experience in the following:

- **Multi-storey buildings**
 - Bridges and Dams
 - Water treatment plant and reservoirs
 - Industrial and mineral processing structures.
 - Roads and stormwater
 - Sub surface drainage
 - Water pipes
 - Structural Steel
-

Qualifications

Higher National Diploma (Building Technolgy-1998)

Degree in Project Management
